

Becoming a Love and Logic Parent

A course for parents and professionals.

CEUs available!

What is a "Love and Logic" Parent?

- Love and Logic Parenting courses exist for parents and professionals working with children of any age.
- The course will help parents and children establish a rewarding relationship built upon love and trust.
- Love and Logic Parenting is about raising responsible children using a win/win philosophy.
- Parents and professionals win by showing love in a healthy manner and establishing effective control.
- Children win by learning responsibility through solving their own problems, and acquire tools for coping with the real world.

Several curriculums and classroom applications are available including preschool, teenagers, and ADHD etc. Traveling courses are available.

The Instructor:

Tammie Haynes' Baccalaureate from Boise State University emphasizes conflict management. For over five years she continues to work side by side with families and persons diagnosed with Mental Illnesses. She is a mother of a rambunctious boy and girl and has practiced Love and Logic techniques for 2 years. Contact information is below.
