# Community Partnerships of Idaho, Inc

*Creating opportunities for people to learn  
and achieve their goals since 1995*

**OUR MISSION:**

*“Creating opportunities for people to learn and achieve their goals”*

**WE VALUE:**

Integrity  
Innovation  
Relationships  
Personal Dignity

# The services and supports we provide include:

## Developmental Therapy

Developmental therapy involves lots of hands-on experience. We help children, teens and adults become more independent and involved in their community. We do this by working with individuals to develop their skills for daily living, socialization, self-help and communication.

## Employment Services

Our task in employment services is to access and place individuals with varying disabilities into jobs in the community. These services include vocational evaluations, community based work evaluations, pre-employment job seeking skills workshops, job placement, work adjustment, follow along supports, and long-term job coaching under community supported employment.

## Mental Health Services

The Psycho-Social Rehabilitation program provides case management and psycho-education to children, adolescents and adults diagnosed with chronic and persistent mental illness. This service can be provided in the home or in the community.

Our Boise clinic offers counseling services and medication management.

## Service Coordination

Service Coordinators help families meet their children’s therapeutic, medical, economic and educational needs. Service Coordinators arrange for services and transportation, monitor your child’s progress towards goals and educate parents about options available in their community.

## IBI Services

IBI (Intensive Behavioral Intervention) is a one-on-one intervention program for children who have self-injurious, aggressive and/or severe deficits in communication, leisure or play skills. This program assists the child in decreasing the behaviors that interfere with learning and increase those behaviors necessary for learning and communication.

## Sandcastles Learning Center

Sandcastles offers a high quality learning environment for children year round, offering preschool classes, after school class for those attending elementary school, and a summer program for school age children. The learning center is accredited by the National Association for the Education of Young Children and is licensed through the City of Boise.

## Recreation Programs

Camp Partnerships is an exciting opportunity for adults with disabilities to enjoy a fun, relaxing vacation. There are a variety of activities that correspond with our annual themes. Each activity offered is tailored so that, in most cases, every individual can participate if they choose. Some activities are: dancing; movies; ping-pong; swimming; karaoke; and more!

## Residential Habilitation

Community Partnerships of Idaho provides agency affiliation for Certified Family Home providers. Our Program Coordinators work with Certified Family Home providers by writing programs to be implemented in the home, provide supervision of services, ensure training hours are met for state requirements, and conduct quality assurance on home services.

## Workshops and Conferences

Community Partnerships of Idaho offers an annual conference and various workshops for professionals, parents, businesses and interested community members/groups. Our training focuses on such areas as disability awareness, mental illness, developmental disability services, employment services, community resources, and professional/personal growth.

*Community Partnerships of Idaho began in 1995 as a dream of a few friends who wanted to make a difference in the lives of children, teens and adults with disabilities. They were committed to “creating opportunities for people to learn and achieve their goals.” This vision for services has guided the company to where it is today.*
