Benefits of Working with

Community Partnerships
of Idaho, Inc

- Access to the Work Opportunity Tax Credit (WOTC), a program that can reduce an employer's federal tax liability.
- We match employees with jobs that fit their interests and abilities.
- We provide initial screening, reviewing the employee's work history and transferable skills.
- Community Partnerships can provide wages to employees during a trial work period, allowing the employer to evaluate the employee before hiring.
- Assistance in determining if reasonable accommodations are necessary. If needed, we can recommend appropriate assistive technology.

Employment Services

Community
Partnerships
of Idaho, Inc

*Creating opportunities for people to learn
and achieve their goals since 1995*

Community Partnerships of Idaho Employment Services

Who Does Community Partnerships Serve?

The Employment Department serves individuals with disabilities who are of working age.

What is the Purpose of the Program?

The Employment Services Department assists individuals in obtaining and maintaining employment that meets their goals and abilities. Services are chosen by our clients and provided on an individual basis. We assist individuals in formulating their vocational goals, obtaining a job and providing support services to assist in maintaining employment. Clients receive a variety of services.

Employers benefit from hiring capable individuals with a desire to work and a willingness to learn. Statistics show that most individuals become long term, loyal employees. Our clients also qualify for Work Opportunities Tax Credits (WOTC).

How is the Employment Program Accredited?

Our services are accredited through the Rehabilitation Services Accreditation System. We work in conjunction with the Idaho Division of Vocational Rehabilitation and employers and businesses within the community.

How is the Program Funded?

Employment services are contracted by the Idaho Division of Vocational Rehabilitation. In addition, Medicaid pays for some long-term support to working clients through job coaching. Private rehabilitation companies and private pay are also accepted.

What Services are Available?

Vocational Evaluation

Vocational evaluation services utilize interest, academic, and aptitude testing to help individuals identify a feasible vocational goal. Services which may be needed to help individuals to obtain and maintain employment are also recommended.

Community-Based Work Evaluation

This is a trial work period in which an individual has the opportunity to try out a particular job in the community. While working, the individual is paid for his/her time by Community Partnerships of Idaho, Inc. Evaluations provide important information relating to the chosen field of work, the client's skills and needed accommodations. At the end of the evaluation, the employer has the option of hiring the client.

Work Adjustment and Job Coaching Services

Employment Specialists work closely with employers and the employees on the job, providing training and support until the job duties are learned. The Employment Specialist provides mediation and communication, as needed, to assure a successful match.

Job Placement and Follow Along Services

An Employment Specialist assists the client in developing a job site. Once the job is found, the Employment Specialist provides follow along support services to help the client adjust. This is as needed.
